

Later From Europe.

ARRIVAL OF THE ASIA.

Vienna Conference Fruitless.

Arrival of the Sultan's Brother in law.

New York, May 9.

The Asia arrived at Halifax at 10 A. M.

Nothing definite is known relative to the condition of the siege. It is the general impression that it is favorable to the Allies, but the Russians return their fire in a spirited manner.

DETAILS OF OPERATIONS.—April 14th. The bombardment is continued night and day from 500 guns, each firing 120 rounds. The Mamelon tower has been silenced, and some round tower guns dismantled, but Belden and Garden batteries keep up a heavy fire. No immediate prospect of an assault.

During the night of the 14th a most sanguinary battle raged between the French and Russians, in which the former destroyed the Russian line of entrenchment in front of the Mamelon tower.

April 15th.—A dispatch to the French Government says the fire of the French batteries maintains its superiority. We have sprung a mine before the Russian battery, at a distance of 30 meters, thereby opening a new parallel which has been successfully joined to others.

Before Lord John Russell left Vienna he had a private interview of two hours with Count Buol and Drouin de L'Huys, and his departure is postponed for a few days to discuss matters with the Austrian Government.

TURKEY.—Mohamet Ali, the Sultan's brother-in-law has been arrested and sent to Sinope, charged with being troublesome.

FRANCE.—The French Exhibition has been postponed from the 10th to the 15th May.

ENGLAND.—The general opinion in England is that the war must continue for a lengthened period.

The London Times speaks of the policy of the new Czar as more cautious than that of Nicholas, and says it is no longer regarded throughout Europe.

A dispatch from the Crimea of April 17th, reports the choice is being made in the French camp.

The cholera continued its ravages at St. Petersburg. A serious outbreak of the fever occurred, causing much distress and destruction of property.

Chicago, May 8.

The Missouri Argus of the 1st publishes the proceedings of a mass meeting at Weston. The resolutions passed say that self defence requires the expulsion of every person bringing into the State negro slaves; that teachers and visitors have no right to the protection of law; that they ratify the proceedings of the Park Hill riot, and approved the resolutions in regard to the Methodists, and add thereto all ministers preaching prejudicial to slavery, that they have no arguments against Abolition papers but the Missouri river, a bonfire, and hangings. They pledge themselves to go to Kansas and help to expel those corrupting slaves, and call a grand mass meeting at Parkville on the 5th inst.

The October Election.

The Logan Gazette, about the only Wing paper in the State which has remained true to the principles and doctrines advocated by Webster and Clay, in speaking of the October Election, says:

"There will, we apprehend, be three tickets for State officers next fall: viz: the Democratic, the Free Soil, and the Know Nothings. Just now, the Democratic chances of success are to say the least, as favorable as those of their opponents. They have preserved, as Whigs ought to have done, their party name and organization, and these are potent. These will recall from the ledgers many a truant lococo who went in merely but of curiosity, to take a look at Sam.

The Free Soil vote will be increased greatly over any vote hitherto given by that party distinctly. Its augmented strength will be drawn from the Know Nothings, mainly. Know Nothingism is suffering just now from general debility. In fact, we think it has incurred the loss of both head and tail; it has achieved severe blows—on the Reserve, by anti-slavery succession, and in Cincinnati also, by its late disastrous defeat.

Mr. Soule and Louis Napoleon.—A meeting of the friends of Mr. Soule was held at New Orleans a few days since, congratulating him on his return to that city. Mr. Soule, in replying to the complimentary resolutions forwarded to him, speaks thus of Louis Napoleon:

"I come back to you with a heart undimmed by ire which the mere mention of my name has had the privilege of provoking in the torpid breast of the crowded cut throat who rules over France, and with a brow on which the most abject and reckless calumnies have not as yet been able to start a blush."

Portsmouth Price Current.

M. DAVIS,

DEALER IN DRY GOODS AND CLOTHING.

WOULD beg leave to announce to his numerous customers and the public generally, that he is now in receipt of his **spring and summer goods** at his store in the west part of his new block, on Water Street, Chillicothe. From the long experience he has had in business, and the liberal patronage heretofore extended to him, which has enabled him to purchase goods for cash only, he flatters himself that he can sell his goods at lower prices than he has ever done before, and is confident that he can compete with any honest dealer west of the mountains. His furnishings goods are complete, and can fit out a customer to every article required. His clothing department can not be excelled, as to neatness of fit, durability of wear and strength of sewing. His goods are selected by himself from the best European and American manufacturers, with great care and attention and warranted all sound.

These goods he will sell at ten per cent lower than any other man in the city of Chillicothe. Call and see for yourselves, and be convinced by ocular demonstration.

COAL COAL.

P. S.—He would also beg leave to announce to the citizens of Chillicothe, Monroe, Lexington, Lexington, Martinsville and adjoining towns, that he has a regular line of boats running to the coal mines, and that he is ready to contract for good Hocking screne coal at market prices, and that he will deliver to any of the above stations on the Railroad by sending their orders by mail.

He will also have a supply of Jackson and New Castle coal for blacksmithing purposes always on hand. may 11 55—2mo.
